## PROFESSIONAL SUMMARY

Detail-oriented fresher with a Post Graduate Diploma in Business Data Analytics and Project Management from IIT Roorkee (in association with Intellipaat), transitioning from a Microbiology background into business analysis. Skilled in SQL, Power BI, Advanced Excel, requirement analysis and stakeholder coordination, with 16 hands-on analytics projects. Seeking a Business Analyst / Data Analyst role where I can turn data and requirements into clear reports and dashboards that support business decisions.

## SKILLS AND TOOLS

- **Database / Querying:** SQL (Microsoft SQL Server) – joins, subqueries, CASE statements, aggregations, advanced SQL, data cleaning
- **Visualization / BI:** Power BI – Power Query, data modelling, DAX, dashboards, Power BI Service
- **Spreadsheets:** Advanced Excel – formulas, IF logic, Pivot Tables, charts, dashboards
- **Business Analysis:** Requirement gathering and analysis, process analysis, documentation, stakeholder management
- **Project and Process Tools:** JIRA, Agile, SDLC, MS Visio, project management
- **Programming:** Python fundamentals

## PROJECTS

**SQL**

- **SQL Case Study 1 – Customer Sales and Profit Analysis:** Queried customer sales data to measure revenue and profit performance.
- **SQL Case Study 2 – Employee and Department Management Analysis:** Analysed employee and department data using joins and aggregations.
- **Restaurant Data Analysis and Rating Insights:** Explored restaurant data in SQL to uncover patterns in ratings, cuisines and pricing.
- **Sales and Customer Data Analysis:** Analysed sales and customer data to report on order trends and customer behaviour.
- **Zomato Restaurant Data Analysis (Advanced SQL):** Applied advanced SQL techniques to derive insights from Zomato restaurant data.

**Power BI**

- **Using Files as a Data Source:** Imported data from Excel, CSV and other file sources into Power BI for reporting.
- **Shaping and Combining Data:** Cleaned, transformed and merged data from multiple sources in Power Query.
- **Data Modelling and Data Visualization:** Built relationships and data models and created interactive reports.
- **Power BI Solution and Direct Connectivity:** Published reports to Power BI Service and worked with direct data connections.
- **Development with Power BI:** Developed end-to-end reports using DAX measures and visuals.
- **YouTube Data Analytics Dashboard:** Built an interactive dashboard analysing YouTube channel and video performance.
- **Power BI Student Survey:** Analysed student survey data and visualised key findings in an interactive report.

**Excel**

- **Project 1 – Unleashing Sales Analytics Potential:** Analysed sales data with formulas and Pivot Tables.
- **Project 2 – Product Pricing and Profit Analysis:** Evaluated product prices against profit margins.
- **Project 3 – Housing Market Explorer:** Explored housing data to compare prices and trends.
- **Project 4 – Sales Analysis Dashboard:** Created an interactive Excel dashboard of sales KPIs.

## EDUCATION

- **Post Graduate Diploma in Business Data Analytics and Project Management** – IIT Roorkee (in association with Intellipaat), 2026, Result: Pass
- **Bachelor of Science (Honours) in Microbiology** – Amity University, Noida, 2024, CGPA: 8.4

## CERTIFICATIONS

- Post Graduate Certification in Business Data Analytics and Project Management – IIT Roorkee x Intellipaat
- Business Analyst Course Certification
- Microsoft SQL Training and Course Certification
- Advanced Excel Certification
- Generative AI Basics Certification

## ACHIEVEMENTS / AWARDS

- Qualified the Pre-Recruitment Test (PRT) in Business Data Analytics and Project Management with a 100% result
- Completed 16 hands-on data analytics projects across SQL, Power BI and Excel during the IIT Roorkee programme
- NPTEL Certification in Basics of Python – 68%
